Wholesale Price List of Plants for Florists and Dealers.

W E ISSUE our Florists' Wholesale Plant List under a separate cover from our Wholesale Seed List, as we believe it will be more convenient for florists in this form. This allows us to increase the size of the pages, give much fuller descriptions to many things; more extended lists of varieties in the leading classes of plants and illustrate more freely, advantages which we trust will be appreciated by our florist friends. This issue will remain in force until about August 1st, when our Autumn Catalogue will be ready.

All offers in this catalogue are made subject to stock being unsold when the order is received, and we reserve the right to advance prices without notice should the available quantity of stock render it necessary.

OUR WHOLESALE SEED CATALOGUE. Our Wholesale Catalogue of Seeds, Implements, etc., is mailed with this; if by any chance you do not receive it, please notify us and we will mail you a copy.

CONDITIONS OF SALE OF PLANTS.

All plants sent by express, unless specially ordered otherwise.

The prices quoted in this list are *positively net*, but include boxes, packing and cartage. A special discount of 5 per cent is allowed on all orders accompanied by cash, C. O. D. orders, and on bills settled within 30 days from date of invoice.

The plants are offered in this list at the rates per 100, provided, (except where they are otherwise offered), that not less than FIVE of each class or variety are taken, nor in less amounts than three dollars for the total value of the order.

The varieties must be our own selection of sorts, unless otherwise offered. Any one wanting special kinds, not offered in this wholesale list, can order from our retail Descriptive Catalogue (The Manual of Everything for the Garden), at the prices quoted therein, from which we allow a discount of one-third.

Orders from unknown correspondents, not accompanied by a remittance, should have a New York City reference—to save delay. If goods are wanted C. O. D. please so state. We cannot send C. O. D. by mail, freight or steamer; all such shipments must go by express.

SPECIAL NOTICE.—While we exercise the greatest care to have all Seeds, Plants and bulbs pure and reliable, we do not give any warranty, express or implied. If the purchaser does not accept the goods on these conditions they must be returned at once, and the money that has been paid for same will be refunded.

P. H. & CO.

THE ADVANTAGES WE OFFER.

We guarantee safe arrival of all plants sent by express. If wanted by mail, we will send them at an advance of one-fourth over the prices quoted. We make no charge for boxes, baskets or packing.

We supply everything for the Garden, Greenhouse, Farm and Lawn.—The fact that we can supply every want of the cultivator in Seeds, Plants, Bulbs, Tools, Fertilizers, Insecticides, &c., enables patrons to have all their goods shipped in one package, or at least at one time, thus saving largely in express or freight charges.

Plant Department.—(See illustration on front of this catalogue). Our greenhouses and frames cover nearly four and one-half acres solid in glass, being the most extensive on this continent.

Every order is filled immediately on arrival, or it is acknowledged if, under rare circumstances, its shipment is likely to be delayed. If goods, notification of shipment or acknowledgment of order is not received by the customer after a reasonable lapse of time, it may be assumed that the order has miscarried, or that the name or address was omitted from the order. We will, where notified of such a case, use our best efforts to trace it without delay.

We have secured for our customers from EXPRESS COMPANIES

20 Per Cent.

Reduction in Express Rates on plants.

Under the new ruling of the leading Express Companies, advocated and secured by us, plants packed in closed boxes or baskets will now be carried at the "General Special" rate. This rate means a reduction of 20 per cent. from the regular merchandise rates to all points where no "General Special" exists. To points where a "General Special" rate is in force the companies make a special reduction. Shipments weighing less than 100 lbs. receive the benefit of the rate per 100 lbs., but the minimum charge is 35c. For instance, where the regular merchandise rate is \$4.00 per 100 lbs., a box of plants weighing 100 lbs. will be carried for \$3.20; a saving of 80c. on one shipment.

THE CRIMSON RAMBLER.

The New Hardy Climbing Rose.

Magnificent Trusses of Rich Crimson Flowers.

ROSE, CRIMSON RAMBLER, GROWN AS A POT PLANT.

The new hardy Japanese climbing Rose, "Crimson Rambler," is one that we offer to our customers, after a year's trial, with greater confidence in its merits. It came to this country heralded as a wonder among flowers, but the most extravagant praises yet bestowed on it fall short of doing it ample justice. The judges at one of the principal flower shows in England, when awarding it a Gold Medal, the highest honor they could bestow, epitomized the views of all who had seen it when they said that the ordinary premiums reserved for new Roses of the highest grade were entirely inadequate to indicate the merits of the "Crimson Rambler." At every exhibition throughout Great Britain where it was shown it received the highest honors, and this opinion was endorsed. The National Rose Society of England, the National Horticultural Society of France and the International Exposition awarded Gold Medals to "Crimson Rambler."

It is of rapid, vigorous growth; plants in our grounds attained a height of fifteen feet the past season. The flowers are produced in trusses, pyramidal in shape, good specimens measuring nine inches from base to tip, and seven inches across, fairly covering the plant from the ground to the top, so that it is *one mass of glowing crimson*. The color is superb, and remains strong and vivid to the end; plants in our grounds retained the bloom for two months. The profusion of bloom is marvelous. A correspondent of the *London Garden* stated that on one shoot he counted over three hundred blooms. It is essentially a garden Rose, but makes a magnificent specimen in a pot or tub. It is adapted to the entire country, and should be in every garden in America.

PRICES:—Strong plants, from 3-inch pots, \$1.50 per doz., \$12.00 per 100. Strong plants from 2-inch pots, \$1.25 per doz.; \$8.00 per 100.

NEW HARDY VARIEGATED ROSE.

ROGER LAMBELIN.

(Greatly reduced in price for this season.)

One of the most remarkable Roses yet offered. The petals are irregular on the edges like a double Petunia; the color is glowing crimson throughout, except the edges of the petals, which are all distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known in Roses. The growth is free and vigorous and the fragrance is delightful, equal to the finest of the hardy Roses. This is a "novelty" of the most striking order. (See cut.) Price, plants from 3-inch pots, \$2.00 per doz.; \$15.00 per 100.

COMTESSE DE BRETEUIL.

A grand new Tea Rose of French origin that will be of great value for outdoor bedding from its fine growth and splendid flowers. It is of very vigorous growth, but dwarf and compact; flowers medium to large in size, with petals of good substance. Color salmon-rose, center bright rose, shaded with apricot; beautiful globular buds and very fragrant. Price, plants from 3-inch pots, \$1.00 per doz.; \$8.00 per 100.

THE MANY-COLORED ROSE,

INCONSTANT BEAUTY.

A wonderful new Rose, deriving its name of "Inconstant Beauty" (*Beaute Inconstante*) from its quality of producing flowers of different shades on the same plant. The colors vary from crimson to light pink, through shades of tawny red, light yellow with orange and citron-red center, pale flesh with pink center, orange-chrome and deep rose, all these colors being frequently seen on one bush at the same time. The beauty of color effects is indescribable. Plant strong and vigorous, flowers full and double. It is a true Tea Rose, consequently ever-blooming and deliciously fragrant. Price, plants from 3-inch pots, \$1.50 per doz.; \$10.00 per 100.

NEW HARDY VARIEGATED ROSE, ROGER LAMBELIN.

VASE OF BRIDESMAID ROSES.

ROSES FOR . . . WINTER BLOOMING

ON this page we offer the best varieties for winter forcing in the greenhouse. These are the sorts grown for the New York market and cannot be surpassed for that purpose. They are also among the best for summer blooming.

AMERICAN BEAUTY.

In "American Beauty" we have a hardy Rose of the largest size, having the ever-blooming qualities of the Tea Rose with the delicious odor of the Damask or Moss Rose, consequently equally valuable for winter or summer flowering. The flowers of this grand Rose are eagerly sought in the New York market; when sold at retail, single buds bring \$1.50 to \$2.00 each at Christmas. In color it is a deep, brilliant pink, shaded towards the center with rich carmine crimson. (*See cut.*) Price, plants from 3-inch pots, \$10.00 per 100.

BRIDESMAID.

A "sport" from C. Mermet, and possessing all the good qualities of the parent variety. It surpasses it in color, being a deep, brilliant pink and constant in color under all conditions. It is invaluable for winter forcing. (*See cut.*)

Catherine Mermet. This charming Rose deserves and receives recognition from all Rose lovers. The color is a delicate rosy pink unapproached by any other. The buds are large, long and pointed, of great substance and most delicious fragrance.

Kaiserin Augusta Victoria. A soft, pearly white, remarkably fragrant, a strong healthy grower. The beautiful, perfectly-shaped flowers are borne in profusion on long stems, so that it is invaluable for cut flowers.

La France. Peach blossom pink, a grand Rose for winter forcing and invaluable for summer flowers.

Mme. de Watteville. Cream and deep rose, a general favorite.

WINTER FLOWERING ROSES—Continued

Mme. Caroline Testout. Flowers full, very large, globular form; color clear satin rose; very vivid; petals bordered with tender rose; very fragrant. Price, plants from 3-inch pots, \$8.00 per 100.

Madame Hoste. This is a creamy white shade with a clear amber center, a handsome Rose, and is never out of bloom. Whether wanted for summer or winter flowers this excellent variety cannot be surpassed.

Meteor. This is a remarkably rich, dark velvety crimson Rose; so dark, indeed, that under certain conditions it is blackish crimson. For winter flowers it is rapidly becoming the most valuable variety on the market. Plants from 3-inch pots, \$8.00 per 100.

Niphotos. The White Rose par excellence—large pointed buds—very free-flowering. Particularly valuable for winter forcing and summer blooming.

Papa Gontier. This is one of the most fashionable of our winter-flowering Roses, but is equally useful for summer bedding. Color, a glowing carmine crimson.

Perle des Jardins. No Rose of its color is more valuable than this. Tens of thousands of it are grown in the vicinity of New York for winter flowering; it is equally valuable for summer, as it flowers continuously. Its color is a rich shade of yellow; large size and perfect form, Tea fragrance, a healthy, free grower, and unequalled in profusion of bloom.

Souvenir de Wootton. This superb Rose is unquestionably one of the finest varieties ever introduced for either summer or winter blooming. The color is a beautiful shade of crimson, deliciously fragrant, a constant and most prolific bloomer, every new shoot forming a flower-bud. Plants from 3-inch pots, \$8.00 per 100.

Sunset. This exquisite orange-yellow variety is one of the finest Tea Roses grown. The flowers are large and double. The exquisite shades of coloring found in this variety can only be compared to the gorgeous colors of a summer sunset; hence the name. It is deliciously fragrant, a strong-growing and free-flowering variety.

The Bride. "The Bride" is a pure white Rose of large size and most perfect form. This variety has the most delicious Tea fragrance, and is a strong-growing, free-blooming Rose either for summer or winter flowering.

NOTE.—All the Roses on this page (except where noted), strong plants, from 3-inch pots, at \$6.00 per 100.

AMERICAN BEAUTY.

New Pink Ever-Blooming Bedding Rose.

. . . , **Pink Soupert.** . . .

A seedling from that premier Bedding Rose, Clothilde Soupert, of which we have spoken so highly, and which will be found elsewhere in this catalogue. "Pink Soupert" inherits all the grand garden qualities of its parent and is a clear pink throughout, bright and attractive; the coloring deepens in some flowers to cherry red, and in others it lessens to light clear pink. The profusion of bloom is wonderful, the whole plant being a mass of flowers. No Rose can possibly excel this for outdoor bedding, and none can be more attractive. It is compact and sturdy in habit, and so hardy for an ever-blooming Rose that it will remain out all winter safely with slight protection. Price, plants from 3 in. pots, \$3.00 per doz.; \$20.00 per 100.

BARONNE BERGE.

We cordially indorse this beautiful Rose as one of the best in the entire list of new varieties for general purposes. The flowers are medium to large size and are produced in abundance. The color is unique—a vivid rose, with bright yellow in the center. It is a vigorous and thrifty grower, and will surely take a place among the best roses. Price, plants from 3 in. pots. \$1.00 per doz.; \$6.00 per 100.

PRINCESS ALICE DE MONACA.

A Charming New Ever-blooming Rose,

Princess Alice de Monaca (Weber).

A most charming new ever-blooming Rose, that must take prominence for summer bedding, as its habit is perfection, strong, upright growth, with clean, healthy foliage almost impervious to mildew. The flowers are produced in wonderful profusion on long straight shoots, are deliciously fragrant, large size, double to the center and of fine form, so that perfect flowers may be had during the hottest summer days. The coloring is exquisite, a creamy white on the outside of the petals, with a faint rosy blush on the edges. As the flowers expand they disclose a charming shade of opaline pink, deepening to rich blush. This rose must not be confounded with another of the same name from a French source. The Rose we offer was raised by Mr. Weber in the Duchess of Monaca's gardens, whose Roses are famous throughout Europe. (See cut.) Price for this grand new Rose, strong plants from 3 in. pots, \$2.00 per doz.; \$15.00 per 100.

✻ New Pink Tea Garden Rose, ✻

. . . , **Maman Cochet** . . .

A new Rose of French origin, destined, we believe, to find a prominent place among the highest grade ever-blooming Roses both for summer and winter blooming. The growth is free and vigorous, very free-blooming, flowers of splendid substance and a delightful shade of deep pink. The buds are long and pointed, full and firm, lasting a long time when cut. As the flowers expand the center of the Rose discloses depths of salmon pink, with light orange tints, while the older petals lessen to pearl pink, giving a combination of tints and tones unequalled in their beauty. Without question this is a charming Rose for the garden or greenhouse. (See cut.) Price, strong plants from 3 in. pots, \$1.00 per doz.; \$8.00 per 100.

NEW PINK TEA GARDEN ROSE,
MAMAN COCHET.

KAISERIN AUGUSTA VICTORIA.

THE PEOPLE'S ROSE.

DUCHESS DE BRABANT.

In the desire to obtain new varieties of Roses, rosarians and dealers are too often prone to overlook old standard sorts which are unquestionably meritorious. Some sorts are too good to be crowded to the wall by new aspirants for honors, as witness the Gen. Jacqueminot, Marechal Niel, La France, Malmaison and many others, and to this class belongs the *Duchesse de Brabant*. Roses come and go, but these go on forever.

Duchesse de Brabant unites in a pronounced degree the highest attributes of a garden Rose; it is vigorous, never fails to produce flowers, healthy, rarely diseased in any way, large full blossoms, beautiful in the bud or open flower, a beautiful shade of soft rosy flesh, deepening to warm pink and bright rose, delightfully fragrant. Price, strong plants from 3 in. pots, \$6.00 per 100; from 2 inch pots, ready up to April 1st, \$4.00 per 100.

THE "SENSATION" TEA ROSE.

. . . CORINNA . . .

The tints of color blended in the flowers of this beautiful Rose render it so attractive and distinct from all other Tea Roses that the blooms exhibited have created quite a sensation. They are flesh color, shaded with rose and suffused with tawny copper; large size, full and of excellent shape, very freely produced on strong stems. We feel assured that for decorative purposes, cutting or exhibition it is invaluable. The growth is vigorous, and for a Tea Rose the plant is very hardy. (*See cut.*) Price, strong plants from 3 in. pots, \$1.50 per doz.; \$10.00 per 100.

The Finest White Ever-Blooming Garden Rose.

KAISERIN AUGUSTA VICTORIA.

A Hybrid Tea Rose, soft pearly white, lightly tinted with lemon in the center, just enough to relieve the white; remarkably fragrant, a strong healthy grower, with bold beautiful foliage. The habit is free; the beautiful, perfectly shaped flowers are borne in profusion on long graceful stems, so that it will be invaluable for cut flowers. Professional florists have been quick to perceive the great value of this peerless variety, and it is now more eagerly sought after than almost any Rose on the market. Since we offered this variety for sale we have received hundreds of letters from all sections of the country praising it most highly and congratulating us upon our judgment as originally expressed. It is not entirely hardy in our northern latitudes. (*See cut.*) Price, strong plants from 3 in. pots, \$6.00 per 100.

The New Changeable Tea Rose.

. . . DUCHESS MARIE SALVIATI . . .

Flowers large and double and deliciously fragrant. The coloring is exquisite, being an orange chrome, lightened with rose and shaded with yellow and tawny buff. It is beautiful, either in the bud or in the fully expanded flower, and will be equally valuable for summer or winter blooming. Price, strong plants from 3 in. pots, \$6.00 per 100; from 2 in. pots, up to April 1, \$4.00 per 100.

An Ever-blooming Rose of Rare Beauty.

GOLDEN GATE.

A promising Rose of American origin, and one that seems to be admirably adapted to the needs of our climate. The flowers are large, very full, and finely formed, and of excellent substance; the buds are long and of a most desirable form; the color is rich creamy white, beautifully tinged with fine golden yellow; the petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of rare beauty. Price, strong plants from 3 in. pots, \$6.00 per 100; from 2 in. pots, up to April 1st, \$4.00 per 100.

HARDY DORMANT ROSES.

All grafted low on Brier stocks.

FOR the second time we offer dormant Roses; this is to satisfy a demand from many customers for plants that can be planted outside early in spring, before it is safe to set out plants that are growing in pots, and consequently are in full leaf. The illustration shows the character of the plants we supply; also the method of planting and pruning them after being planted. We can supply these from the time this catalogue is issued up to April 15th; after that time they can only be supplied from pots, at the prices quoted at the end of the list. If planted as shown in the illustration, these Roses, although grafted, will emit roots where the true Rose joins the Brier stock, and will eventually become established on their own roots. The great value of these grafted Roses lies in the fact that they produce better flowers and make stronger plants in a shorter period than those grown from cuttings; and the advantage is that having no soil on the roots and being dormant, they are of little weight and can be sent cheaply by express or freight. Procure them early and store in a cool place until the ground is ready for them.

CRIMSON RAMBLER (See also page 1.)

GENERAL . . . COLLECTION OF EVER-BLOOMING ROSES.

Varieties not offered elsewhere in this Catalogue. Examine the list carefully; it contains the very finest of the old standard sorts.

FOR the convenience of our customers, we have subdivided the collection into six leading groups of shades of color. This will, we trust, greatly facilitate the work of selecting. Although we do not offer as long a list of varieties of Roses as some, yet our stock in quality, condition and extent is unequalled, and we contend that our customers are safer in selecting from our list of choice tested varieties than if we offered a long list, which would of necessity contain many inferior sorts. NEW JAPANESE MAPLE-LEAVED ABUTILON.

(SOUVENIR DE BONN.)

The above illustration was made from a plant in our grounds.

This is a strong rival to a Japanese maple; in fact, at first glance, it might be mistaken for one. For massing in groups or in long borders for single specimens, either in the garden or greenhouse, for any and all decorative purposes, it cannot be surpassed. It is a most striking decorative foliage plant, with beautifully variegated leaves of good size, regularly and evenly marked with white and green. Amid these leaves the gracefully drooping orange-colored flowers are produced in great abundance, forming a clear and brilliant contrast. (See cut.) Price, \$1.00 per doz.; \$8.00 per 100.

A grand contrast to this is *STROBILANTHES* offered on page 21.

ACALYPHA MOSAICA.

A beautiful variegated foliage bedding plant, much richer in color than the finest Coleus; it can be used in the same way, and is certain to become popular for ornamental and subtropical bedding. \$1.50 per doz.; \$8.00 per 100.

ASPARAGUS PLUMOSUS NANUS.

One of the handsomest of our foliage plants. The leaves are a bright green, are gracefully arched; and are as finely woven as the finest silken mesh; their lasting qualities, when cut, are remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing Maiden Hair Ferns in grace, fineness of texture and richness of color. Strong plants, from 2-inch pots, \$6.00 per 100; from 3-inch pots, \$8.00 per 100.

ASPARAGUS TENUISSIMUS.

Very fine filmy foliage. A handsome climbing plant for the window and a very useful pot plant. \$1.00 per doz.; \$6.00 per 100.

ASPARAGUS SCANDENS DEFLEXUS.

A very pretty variety with glaucous green foliage of a drooping habit. Very ornamental for a hanging basket in conservatory, when covered with its brilliant red fruit. Strong plants, \$1.50 per doz.; \$10.00 per 100.

AMARYLLIS.

Beautiful flowering bulbs, which should find a place in every garden. They force readily, are admirable for pot culture, and by proper care can be had in bloom during the whole year.

Formosissima (*Jacobean Lily*). Crimson, blooming early in the summer. \$3.00 per doz.; \$12.00 per 100.

Hybrids of Vittata. Red and white striped. \$5.00 per doz.; \$40.00 per 100.
Johnsoni. Very large flower of a rich crimson scarlet color, striped with white. \$3.00 per doz.; \$20.00 per 100.

AMPELOPSIS VEITCHII.

Sometimes called "Boston Ivy" and "Japan Ivy."

No picture can portray the beauty of this grand climbing plant. It is adapted to all situations, and transforms the humblest cottage. It is entirely hardy in the most exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones, brick or wood-work with the greatest tenacity. It is a great protection to houses, as the leaves lapping over each other like slates on a roof effectually prevent rain from penetrating the walls. For covering dead trees, gate posts, boundary walls, verandas, etc., it has no equal, while its rapid growth and tenacious clinging qualities make it a most desirable plant for staying up terraces. In the summer the foliage is a rich shade of green, but in fall it assumes the most gorgeous tints of scarlet, crimson and orange, so dazzling as to be seen at a great distance. We sold over 50,000 plants of this the past season, a large proportion of which were used on churches and public buildings. Price, \$10.00 per 100.

DOUBLE GOLDEN MARGUERITE,

(*Anthemis Coronaria*, fl. pl.)

Thousands of this valuable plant are now sold annually in the New York market, being so attractive when in bloom that it sells on sight. The flowers are clear golden yellow, it blooms without cessation the entire season; in winter as well as in summer it is ever covered with bloom. Each season's experience with this grand plant more than confirms the high opinion formed of it when first set out. \$1.00 per doz.; \$6.00 per 100.

ANEMONE WHIRLWIND.

A new semi-double form of *Anemone Japonica Alba*, which is supposed to be a cross between this beautiful variety and *A. Japonica Rosea*. In general style and habit it is identical with the white *Anemone*. It is of the same strong habit of growth, and is even more free-flowering than the original type. The flowers, which are 2½ to 3 inches across, have several rows of pure white petals, and have the advantage of lasting much longer than the single varieties. We consider this a good acquisition, and cannot recommend it too highly. (See cut.) Price, \$1.25 per doz.; \$8.00 per 100.

AZALEA INDICA.

Bougainvillea Sanderiana.

"We have grown this new Bougainvillea in a greenhouse, where it has continued flowering for seven months, small and large plants alike being covered with blossoms. Even plants in thumb-pots were laden with bloom. The house in which our plants have been cultivated has been a sheet of flowers from May until December, and at the time of writing (December 30th), the plants are carrying thousands of their brilliant blossoms. Many excellent judges state that this will be a favorite market plant, as it produces as freely as a Fuchsia its dazzling *rosy crimson flowers*, lasting so long in perfection, and produced in smallest pots, under all conditions, in amazing profusion. We can with all confidence recommend this grand plant as a great acquisition."—*(Introducer's description.)* Price, \$3.00 per doz., \$20.00 per 100.

SINGLE WHITE TUBEROUS BEGONIA.

Araucaria Excelsa.

(Norfolk Island Pine.)

Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "*Christmas Tree Palm*" from its resemblance to a Christmas tree; others have called it the "*Star Palm*," because the leaves are arranged to form a perfect star, but no descriptive name can give any adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. (*See cul.*) Extra fine plants, 20 to 24 inches high, 4 to 5 tiers, \$2.50 each; 15 to 18 inches high, \$1.50 each; 12 to 15 inches high, \$1.00 each.

TUBEROUS BEGONIAS.

All Selected Bulbs.

These are now the most popular plants for beds of summer flowers, or as pot plants for the greenhouse, conservatory or sitting-room. Our bulbs are all sound, well matured and of good size. For a time it was generally supposed that these could not be grown in the open air with success, but extensive plantings of them in various sections of the country have demonstrated their adaptability for this purpose. Nothing can exceed the brilliancy of their colors, the delicacy of their tints, the richness of their waxy flowers, the gorgeousness of their effect in masses, or their graceful appearance in beds or borders. From the time the first blossom appears until all growth is stopped by frost, they are never out of bloom. (*See cut.*)

SINGLE TUBEROUS BEGONIAS.

Separate Colors.

Bright Scarlet, Splendid Yellow, Deep Crimson, Pure White, Rich Pink, Orange Salmon. ¶ Any of the above colors, at 60 cts. per doz., \$4.00 per 100.

The Queen of Gilt Edge Cannas,

QUEEN CHARLOTTE.

A grand, large-flowered, ever-blooming French Canna, with a distinct golden belt around each petal, the center brilliant orange scarlet, with crimson tones.

When seen in groups the brilliancy of "Queen Charlotte" dazzles the eye with its brilliant scarlet crimson, massy gold and rich orange scarlet, separate and distinct, yet blended as only Nature can blend and harmonize in her own workshop and in her own way.

The plant is sturdy and compact, the blossoms stand well above the handsome Musa-like green foliage, yet not too high; each main flower shoot is succeeded by many side shoots, thus insuring an unbroken succession of flowers. The individual flowers are very large, stout and densely set, but not so as to appear crowded, the whole forming a perfect bouquet, and admirably adapted to resist our summer winds. (See cut.)

Price, dormant roots, which can be supplied up to May 15th, \$1.50 per doz., \$10.00 per 100. Established plants from 4-inch pots, ready May 1st, \$2.00 per doz., \$15.00 per 100.

New Peachblow Canna. (Alba Rosea? Grandiflora.)

The most distinct variety of Canna known at the present time. The sheath which incloses the flower is light bronze, the stem deep bronze; the opening flower protruding shows a point of bright yellow, very pretty and distinct. It is in the fully expanded flower, however, that the great beauty is shown. The base of the petals is rich, deep rose, tinting upwards through light rose into flesh pink, until the color merges imperceptibly into creamy white, fully one-half the flower being the latter color—the general effect reminding one of the coloring in the celebrated "Peachblow Vase." The flowers are held at right angles from the stem, not crowded, so that each is distinct and the effect is very graceful. The foliage is dark green; height, 5 feet. Price, \$2.00 per doz., \$15.00 per 100.

New Crimson Canna, Columbia. A bright crimson with very deep orange crimson markings; the habit of the plant is strong, of symmetrical growth, about 4 feet high, with rich deep green foliage. Price, \$5.00 per doz., \$40.00 per 100.

New Yellow Canna, El Dorado. A dream of gold, the finest yellow, large-flowering, ever-blooming French Canna, and it seems impossible to conceive anything finer. The flowers and trusses are of the largest size, and crown the plant with a mass of pure yellow. The plant is sturdy and compact, grand foliage and habit. We have only a limited stock to offer. Price, \$6.00 per doz.

NEW GILT-EDGED CANNA, SOUV. D'ANTOINE CROZY.

This is a marvelously brilliant Canna; intense scarlet crimson, rich and dazzling, bordered with a broad rich golden yellow edge, and does not fade or scorch in the hot and dry weather. This invaluable quality it shares with Queen Charlotte, the other grand "Gilt Edge" variety shown above. Of vigorous habit, 3 feet high. Price, \$5.00 per doz., \$40.00 per 100.

NEW LEOPARD SPOTTED CANNA, MADAME MONTEFIORE.

This is a grand spotted variety well deserving the appellation of the "Leopard" Canna. Viewed individually the spots are a prominent feature of the flower, but when planted in masses, even at a short distance, the general effect is rich yellow, while many others, under equal conditions, have an orange appearance. The flowers are a clear light yellow spotted with red, very large; grows about 4½ feet, deep, green foliage. (See cut.) Price, \$4.00 per doz., \$30.00 per 100.

Through a golden field are scattered irregular spots and blotches of deep brownish crimson and orange scarlet, with great patches of color in the center of the flowers. No Orchid is more generously endowed than this in the distribution of colors; no butterfly is more pleasingly decorated. It is with the purpose of accentuating this rare coloring that we have given it the title of the "Butterfly" Canna as the only appropriate one fitting its appearance; at a little distance the flowers look like golden butterflies fluttering above the green leaves. The natural height is four and a half feet, splendid foliage and branching flower stalks. Price, \$4.00 per dozen.

Thousands are grown for that market annually and are in such demand that the *cut flowers* frequently sell at the rate of \$5.00 per dozen, wholesale. It is unequaled for size, measuring *four inches* across, and is a beautiful shade of blush, similar to the Malmaison Rose. Visitors abroad have marveled much about this wonderful Carnation, and we have had numerous inquiries for plants from customers in every section of the country. To satisfy this demand we have imported a fine lot of young plants for this season from the leading London grower. The fragrance of the "*Malmaison*" is exquisite, being the most delicious of all Carnations. Price, strong imported plants, \$1.50 per doz.; \$12.00 per 100.

Daybreak.

Too much cannot be said in praise of this grand Carnation. The color is exquisite, a charming shade of flesh pink. It was this delicate shade which suggested its name of "*Daybreak*," because of the similarity to the first faint tinge of pink seen in the eastern sky at sunrise. The growth of the plant is vigorous and healthy, and the flowers possess the Carnation fragrance in a marked degree. (*See cut.*) Price, plants from 2 in. pots, \$4 per 100.

The plants are all grown from selected seed. Price, \$4.00 per 100.

Hardy Garden Carnations.

Every color known in Carnations is represented—white, crimson, scarlet, orange, maroon, yellow, striped, speckled, etc.; but although all these colors and numerous shades not mentioned are to be found in them, yet having been grown from mixed seed we cannot supply any special color. The Best Early Yellow, "Marion Henderson."

It is full of petals to the center and lasts a long time; in fact, although very early, it can yet be made late, because it remains perfect on the plant for such a length of time. We cut the first flowers on October 10th, days before any other large yellow was ready, and had perfect flowers to cut a month later. This grand variety will be invaluable for early cut flowers, and we believe will occupy the same position among early varieties that Golden Wedding does among late ones. Price, \$4.00 per 100. See opinion below concerning this variety.

A seedling Chrysanthemum raised by ourselves, and we have every confidence in offering it as the best early yellow Chrysanthemum. On October 5th the whole house was forming into a mass of bright yellow. Its quality and its earliness mean dollars and cents, and we were most enthusiastic over the beauty and good quality of **MARION HENDERSON.**

Extract from **FLORISTS' EXCHANGE**: "Here we saw probably the finest batch of **MARION HENDERSON** around New York or anywhere else, and here this variety is all and more than is claimed for it. On October 5th the whole house was forming into a mass of bright yellow. Its quality and its earliness mean dollars and cents, and we were most enthusiastic over the beauty and good quality of **MARION HENDERSON.**"

It continues flowering, and new berries are forming from late spring until frost. The berries ripen in early autumn and remain on the vine late in the winter (See cut.) NEW DOUBLE WHITE PETUNIA, "DEFENDER." 2/3 natural size

Double White Petunia, Defender.

The best out of over a million seedling plants.

We devote special effort to the cultivation of the Double Petunia; we spare no pains or expense to obtain the best results, and as a consequence we succeed annually in raising a succession of fine varieties; but in the long list of grand sorts which we have raised not one can approach this. Double White Petunias are always scarce; it is no exaggeration to say that in the past twenty years we have grown over a million seedlings, and not one was the equal of this. The illustration, which is about two-thirds natural size, gives a good idea of its perfection of form and purity of color. We have named it in honor of the "White Beauty," which so successfully defended the "blue ribbon of the seas," and it is well worthy of the title. It will, we believe, successfully defend its claim to be the best Double White Petunia ever raised. Price, \$2.00 per doz., \$12.00 per 100.

Decorative Plants, Palms, Pandanus, Etc.

There are no plants more attractive than those offered on this page, and none which yield more pleasure to the cultivator for the amount of care bestowed. Our Palms are grown specially for house culture, and are particularly hardy and thrifty, because grown in a comparatively low temperature. As a basis for selecting and guide as to what may be expected, we mention the sizes and number of leaves, according to prices, but these are approximate only; plants are constantly developing, and a shorter one often appears better than a taller one; in such cases we will use our judgment in selecting.

KENTIA BELMOREANA.

KENTIAS.

These are sometimes called the "Curly Palm," and are recognized as among the best for all purposes, being capable of standing more ill-usage perhaps than any other. The leaves have a tendency to curl as the plant grows older, hence its popular title of "Curly Palm." Our plants are of stout, stocky growth, and are sure to give satisfaction.

Price, specimen plants, 3 to 4 ft. high, \$3.50 each; 2 to 3 ft. high, 5 to 6 leaves, \$2.00 each.

DRACÆNA INDIVISA.

in the open ground in summer. Its growth is not unlike a Canna, strong and free, and the foliage is beautifully marked creamy white on a dark green ground; the white and green blend in some portions of the leaf, and the result is shades of sea green, moss green, etc., although the prevailing colors are white and dark green. It is of the easiest culture, will grow and make fine plants in the house, and lasts well under ordinary conditions.

Price, 4 in. pots, \$3.00 per doz.; \$20.00 per 100.

TRUE PARMA VIOLET.

The plant shown in cut (reduced to one-third natural size) is the True Parma Violet, and was engraved from a photograph of a plant growing in our greenhouses. It was exactly 12 inches across, and covered with flowers as large as a fifty-cent piece. The color is very deep, and the odor is very powerful; the health of the plants is perfect: imported stock that had never been forced. We had often been asked for this variety, and after repeated efforts we have succeeded in importing it successfully. We feel great satisfaction in being able to offer it, and feel confident it will give great satisfaction. Price, young plants, \$2.00 per doz.; \$12.60 per 100.

It is entirely hardy in the most exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones, brick or wood work with the greatest tenacity. It is a great protection to houses, as the leaves lapping over each other like slates on a roof effectually prevent rain from penetrating the walls. For covering dead trees, gate posts, boundary walls, verandas, etc., it has no equal. In the summer the foliage is a rich shade of green, but in the fall it assumes the most gorgeous tints of *scarlet, crimson and orange*, so dazzling as to be seen at a great distance.
